LOCAL NEWS.

SOLAR ECLIPSE To morrow, March 15th, there will an eclipse of the sun, total near the Island of Madeira, and annular here. It will commence before suffrise, and we shall get but a partial glimpse of the "God of Day," who will soon be very much hidden from view. Throughout Great Britain, France, Germany, Denmark, Sweden, &c., the eclipse will be very large, and in that part of England where it will be actually central the spectacle will be even more interesting and beautiful that armide eclipses usually are, in consequence of the remarkable not be perfect at diff place, and the edge of the sun may be broken into segments by the fregularities of, or pro-jections from the lunar disc. By the astroffcomers thus favorably situated, (and many, provided with suitable futruments, will doubtless establish themselves on the central line,) this eclipse will of course be carefully observed, but it is not probable, from want of time, that the ornered of both of the second and third contacts, or the formation and ruptiffs of the ring, can be satisfac torily seen by the same observer.

The eclipse will close here at eleven minutes she

seven, a. m.; so those who wish to see it must rise be times. It has very properly been stated, for the benefit of the public, that if the sun is unclouded at the time of the eclipse it should not be looked at except through a very dark, red, green, or blue glass, or through common window glass, well blackened in the smoke of a lamp. From a neglect of this precaution in former coffpees the eyes of some persons were seriously injured.

The beginning of the eclipse will not be visible in the United States except at Eastport, the most eastern point of our territory, and it will not be visible at all in the region of country west of a line drawn from the western shore of Lake Superior to the city of Mobile. SUPERINTENDENT OF PUBLIC SCHOOLS .- "Quantico," the

"If our friend of the Washington Star "in examine the 2d section of the bill creating the office of Superintendent of Public Schools, he will find that it is made the duty of the superintendent 'to prescribe the proper studies, hours for teal billing, discipline, and conduct of the schools, the course of instruction to be pursued, and the elementary books to be adopted therein, '&c. He will also find by reference to the 3d section that no person can, for the researce of the bill, he appropriate a teacher, or after the passage of the bill, be appointed a teacher, or assistant teacher, without a certificate of qualification from the superintendent. My objection to the bill was, that it placed too much power in the Erne's of one man, and that man brought from a distant State, aid of different views on vital questions from the large majority of our citizens; that it expended \$1,500 for doing what is now done gratuitously, and well done, too.

"I may be in error as to the person indicated by the Star, but I am not in error as to the person intended to be benefited by the money of the bill. The Star says that the person indicated by "Quantico' is in the receipt of a salary in New York of \$3,000, and it is hardly probable would, if appointed, come to Washington for only one half of that compensation. I can inform the Star that the gentleman indicated as receiving \$3,000 intends coming to Washington and has noticed his tenant to vacate his house by the 15th of next April, as he wishes to send his furniture of by that time. My statement was correct as to the political tendences of the gentleman indicated by me, though I am satisfied the effect of the Star would not knowingly promote the appointment to office of any one not sound in his political views, the more especially when the instructors of our children and the choice of the books placed in their hands are under his control. Perhaps we need a superintendent of der his control. Perhaps we need a superintendent of the public schools, but we want it so arranged that he will be subordinate to the trustees, and not the trustees subordinate to him."

In connexion with this subject, we copy the following from the New York Sun:
